# Head Louse (Bug Books)

## **Synopsis**

This text is part of a collection of titles which describe how insects and minibeasts grow, reproduce, move around, feed and use their senses. This volume focuses on head lice. The titles are part of the "Take-Off!" series, which is designed to be used with nine-year-olds who are struggling to achieve the levels of literacy expected for their age. The books chosen have been based on best-selling titles within existing Heinemann Library series and meet all Key Stage 2 requirements for the subject area. The National Literacy Strategy emphasizes that children with special educational needs should work, wherever possible, with their peers within the Literacy Hour. The aim is to use structured, intensive teaching to enable as many children as possible to work at the appropriate level for their age. --This text refers to an out of print or unavailable edition of this title.

## **Customer Reviews**

Karen Hartley is a Heinemann Raintree author.

This book focuses on only head lice - it doesn't really mention avian varieties nor body lice. It's got some very nice photographs, including a really kid-friendly (gross) picture of someone with a bad hair infestation. Chapter Headings are: What Are Head Lice? What Head Lice Look Like How Big Are

Head Lice?How Head Lice Are BornHow Head Lice GrowWhat Head Lice EatHow We Attack Head LiceWhere Head Lice LiveHow Head Lice MoveHow Long Head Lice LiveWhat Head Lice DoHow Are Head Lice Special?Thinking about Head LiceBug MapGlossary/More Books to Read/IndexFour Stars :::Great photographs. This book's focus is on head lice and it would make a good selection for an elementary aged student who is either writing a book report, or who wants to learn more about the vile little creatures.The Accelerated Reading level (ATOS) for "Head Louse" is 3.7.Pam T~mom and reviewer for BooksforKids-reviews
