Great book of jazz standards, geared towards gigs with singers and that repertoire.

As a semipro guitarist and vocalist, I have used this book as the authority when I want to do one of the old standards. I have the 'Just Jazz' version also, but this one has more recognizable tunes if you're not doing a jazz gig per se. I first bought the Bb edition for a few bucks at a defunct music store, but I gave it to a trumpet player friend who loves it. I ordered a used C edition on from one of their many fine vendors, and received it timely and in almost perfect condition. I am really digging not having to transpose anymore!

This is a great book with a good variety of tunes. I find that I have access to most everything I need between this one and the other volume entitled Just Jazz. If you have to choose between the two, I would go with the latter.

C Edition Fakebook is perfect. I only wish I could have gotten it more quickly. Not sure why only standard shipping is available. Still the book was well packaged and received as promised. Thank you!

The chord work used is "outstanding". I've had many of the same pieces in other books, but in this book the publisher added additional chords to each piece and the chords fit the songs "perfectly". Flatted 9ths, diminished chords, minor 6ths all included. The pages are not congested and the print is very clear. This music book is extremely well done.

Terrific compilation of large font fake sheets for many of the best standards in the Great American Songbook. Also easy for my old eyes to read.. Very worth the cost!DrD

Excellent songbook, great songs selection and arrangements.

Great music book for my needs.
