Customer Reviews

A very useful book for couples who are married or in a longer relationship. The relationship between

man and woman I watch as the game. And even sex is, in some way a game between two adults who love each other. It is true that over time sex becomes boring. This book is an excellent way to spark refresh their sex life. All recommendations!

This book explains techniques that actually make married people relationship strong. It is good for reading to married because they could befit their self with nature interests. Sex is one of the most interesting and entertaining act, for the purpose that a person should know all the method and techniques to avail these opportunity.

Real cool book! It gave me a fresher and wide perspective on how to be a very effective sex partner. It helped me to have a better understanding of what sex satisfaction is. I will recommend this to all my friends who wants to intensify the passion and relationship with their partners in terms of intimate aspects.

A nice marriage guide. I guess marriage can seem a little boring after years together and sometimes everyone needs to change something to fresh the relationships. This book provides some interesting ideas on how to improve your sex life in marriage and bring back romance to your love life.

Quick and easy read. Can be helpful for couples willing to try new things.

I was surprised to learn that many married couples don't have conversations about sex and rarely talk about what they would prefer. They go through the motions until it gets boring - the perfect back drop to cheating and having a loveless marriage. The Sex Starved Marriage is a great book to help you get the conversation about sex started so that you can be comfortable with your spouse and rekindle flames that may have once died out.

This book would have been a lot better, maybe a 3 1/2 star book if it had illustrations. Some of the explanations are very hard to understand and are probably not written correctly, i.e.. Position Nine: Shoulder Stand, This one is with her on his back and him on his knees on any surface....(if you continue reading this, you will see it makes no sense at all). The author comes across as someone who did not learn English as his first language. Lots of mistakes with grammar. Couldn't finish the book as I got bored by the time I reached Position 12. Glad I got this book for free.
