Deduct Everything!: Save Money With Hundreds Of Legal Tax Breaks, Credits, Write-Offs, And Loopholes

Synopsis

The tax code may be bloated, but that doesn't mean your check to the IRS has to be. Let *Deduct Everything!* be your ultimate guide to lowering your annual tax bill. This comprehensive guide to legal deductions, credits, and loopholes covers rules of thumb for record-keeping and how to stay organized, secrets to mortgage, tax and insurance deductions, maximizing work-related expenses, making the most of medical expenses and health savings accounts, strategies for utilizing deductions and credits for education, and lots of tips on how to make more money - some of it tax-free!

Customer Reviews

This was a gift book to a person who has so much trouble with the present tax code, and she really was thrilled to receive this book. It arrived, as advertised, and double wrapped, in under the time predicted for delivery. Great service.

Eva Rosenberg set the standard for books about small business taxes with her *Small Business Taxes Made Easy*, Second Edition. She has done the same for books on personal taxes with this work. I've read a stack of books about taxes, and you won't find a better one than this. What sets this book apart is Eva's rare combination of technical expertise and a delightful, even entertaining, writing style. Yes, this is a tax book. And yes, I just said it is delightful and entertaining. How could that be? Well, because it's written by the TaxMama. Nobody

writes about taxes the way she does. She's able to take any complex tax topic, explain it in a way that you will actually understand, and do so in a manner that will put a smile on your face. Now, that's not to say that every page is a barrel of laughs. This book is jam-packed with literally hundreds of useful tips (270 to be exact) about our complicated personal income tax system. If you apply yourself and read this book diligently and carefully, you'll learn how to take advantage of dozens of tax deductions and credits. And you'll learn about these tax breaks from one of America's premiere tax gurus. I give this book my highest recommendation. Get this book and you'll get your money back many times over.

I love the book. Well written and full of excellent tax saving info!

I got the audiobook to listen while driving home from work, usually one hour drive every day. Within a week, I gained significant knowledge about taxes. I highly recommend audiobook to who don't have extra time but willing to learn more (and pay less taxes). Eva Rosenberg is truly a tax guru in the field. Though it's not a heavy duty for tax professionals but very helpful for everyone who will be filling their taxes.

It's well organized and easy to follow. I like all the resources citation. Thank you very much. I will visit taxmama.com soon.

Only for the most basic of tax filers. The author suggests you see a professional if you meet one of many conditions, which anybody but an unemployed student is likely to meet.

Easy to read the book. Eva hammers home the necessity to keep track of everything you do, the book is easy to read, with multiple sections on multiple topics all broken down nicely. I will be keeping this book as a reference.

I learned a lot from this book. Have you ever heard of the MyRA? This is not just a list of what you can deduct. Eva goes into detail on how you can maximize your deduction and alternatives if you don't meet a criteria for a certain deduction. The resource list in the back is worth the cost of the book ten times over.
