Oceans (Insiders)

Synopsis

INSIDERS -- a visually groundbreaking, state-of-the-art nonfiction series that outshines Eyewitness and Discoveries. This stunning new series offers an inside look into twelve riveting subjects, beginning with Dinosaurs, Egypt, Oceans, and Space. Expertly written, each book will feature an arresting design, complete with dynamic, multi-layered CGI and 3D model imagery that is complemented by fascinating, up-to-date information presented in a user-friendly format. Oceans is a multi-dimensional showcase of the aquatic universe! Take a look inside the formation of waves and tsunamis, see a cross-section of an underwater living lab, and explore the plant and animal species that live miles beneath the ocean's surface.

Customer Reviews

The book is in very good conditions only one small scratch at two corners but everything else is perfect, We are very pleased with the service and we got what we expected. I recomend this site and will buy again from them. Thank you for contacting me. Maggie

Nice book, great for kids. My daughter loves it.

My son enjoy a lot this book

My son loves these books

My children love Insiders. The graphics are wonderful. They are fun books and informative. The only drawback I have is in every nature book in Insiders humans are bad and the cause of all problems. Meh. Annoying, yes, but I'd still buy them; I just let the kiddos know about real science versus baloney-theories. If this is something that would annoy you or cause you to reconsider, it is pretty pervasive in the series. However, if you can get past that everything else about this series and this book, Oceans, is fantastic. The descriptions and illustrations capture the imagination. My son especially likes the angler fish and dark zone portions.

I really love this book and i highly recommend it my students love this book and they fight over it all of the time

beautiful book my son loves it. Pictures very nice and good quality. he will have this book forever and it was a good purchase.

I enjoy watching the grandchildren studying the pictures. I learn from the words. We talk together.
