He has a bachelor's degree from the University of Arkansas and his master's degree and doctorate from Arizona State University.

Great prices! Saved over 90 percent!

Thank goodness we can rent textbooks for a reasonable price and return them when the semester is over!! If you're buying your textbooks on campus you're throwing money away.

I purchased this textbook for an online class and found it very useful. The book was easy to navigate through and the seller was amazing (bought used).

This textbook was average. The writing was fairly wordy and the subject was covered in great detail. In some cases the authors go into more detail than is necessary for a basic introduction to marketing. I did enjoy the presentation of the material. The key terms were easy to identify and listed out nicely. The real world examples throughout the book were also interesting and informative. I felt that I got a good value from this textbook and I would encourage you to purchase it here on . I had a great experience purchasing and using this textbook

kind of beat up and written on, but got the job done

Several insightful tidbits in this book

The book was in pretty good shape nothing missing

Good information and resource. It was easy to understand and colorful. I would recommend this.
