Customer Reviews

Many of us live under a misconception, a misunderstanding of what living out our faith entails, what authentic Christianity really looks like. This book is an excellent, short compendium to correct our misconceptions and clarify the Truth we desperately need to grasp. Discouraged at times in your faith? Feel like maybe you're a failure as a believer? This book gives you hope and confidence we can be all we were intended to be and do!! A must read for every believer no matter where you may be on this journey.

Excellent - Excellent - Phillips in this book hits the core of all believers in their commitment to their faith. What kind of God do we really believe in? Is He the God - big enough to cover all aspects of

life and all people or do we limit Him to a rocking chair - or the policeman -,etc. It should change your concept of God - I recommend this book for reading by all professing Christians.

This book is extremely thought provoking. Buy it!

This book was written by a British preacher long ago but the material is still relevant, although the language is at times outdated. I read an updated version of this book and then went back to read this and liked the original better! He presents many arguments about people's ideas about God and what constitutes a more realistic image of the Almighty. Interesting reading.

Very few books can continue to challenge the reader like this small book does. I have read it over and over and it has helped me keep the reality of the Divine manifestation in my life real. It challenges the reader to dispose of false concepts and presuppositions about God and allow His word to speak for him. Too often try and put God in a box and make Him "Safe" Phillips challenges that concept of a "safe" God and challenges us to replace misconceptions with the God revealed in the Bible

Still relevant and challenging after all these years!

J. B. Phillips does a marvelous job of cataloging the various ways we picture God and critiquing each one. In the second half of his book, he builds up an adequate picture of God that casts a familiar person in a new light.

This was highly recommended so I thought I would learn a lot. It probably was revolutionary when it first came out but now there are better books. Try almost anything by Dallas Willard or Louie Giglio.
