Black & Decker The Complete Guide To Bathrooms, Third Edition: *Remodeling On A Budget * Vanities & Cabinets * Plumbing & Fixtures * Showers, Sinks & Tubs (Black & Decker Complete Guide)

Synopsis

This best-selling bathroom remodeling book features practical, achievable bathroom improvements and upgrades shown with clear color step-by-step photos. From replacing surfaces and fixtures to installing plumbing and making easy decorative improvements, Black & Decker The Complete Guide to Bathrooms shows you how to save thousands of dollars by doing the job yourself. Packed with well-chosen projects and on-trend materials, this book has everything you need to serve as a guide for creating a smart, attractive (and maybe a bit luxurious) bathroom. As a bonus, you'll also get a direct computer link to an original series of step-by-step bathroom remodeling videos that you won't find anywhere else on the Internet.

Customer Reviews

Creative Publishing International is a worldwide publisher of how-to books. The company's current retail offering includes over 300 titles on topics covering home improvement, home decorating, sewing, crafting, hunting & fishing, and photography. Over the past 15 years, CPI has developed high-quality photography step-by-step books with nationally recognized brand partners like Black & Decker and Singer.

I am mechanically inclined but I found this book goes into great depth for me. I feel as though I could

follow this book alone and put in a bathroom whenever i am done. I especially appreciate the section that focuses on the custom showers which is what i aspire to put in my master bedroom downstairs some day. Thank you black and decker, i will be checking into your other books.

I am not a contractor, but I am completely remodeling three bathrooms in my home. To help with that, I purchased four different books on the subjects. Each provides some good information, but this one is the most comprehensive, and it doesn't leave out steps which the others occasionally do. As a novice, I don't get to a certain point and get stumped on what to do next because this book guides you all the way. Good illustrations also.

If you're doing new construction where everything is perfect, this is a decent guide. Some steps should be shown in pictures that are just described minimally. If you're doing any renovation, this book is not that helpful.

This is more like a greatest hits book. It doesn't go about how to plan and build certain type of bathrooms. It' shows you things like "this is what this bathroom" looks like. Like an idea type book. It really is a bit of a rip-off book as it just takes photos and concepts from some of their other (and my opinion, better books).

This is a good book not to build things from scratch but to get good points to reference along the way during the process. When I owned my house I would use this occasionally for reference and it is worth the price.

Always a great reference. Beginners to advanced techniques and I always have a book to fall back on.

This is a good reference book for those "DIY" bathroom projects.

great photos but the information was average.
