Irma Boom: The Architecture Of The Book

Synopsis

Irma Boom has become one of the most widely renowned and laureated book designers in the world today. Her often ingenious solutions to individual book productions have gained her international fame and her work is now collected by many leading museums such as the MoMa in New York. Besides book designs she also creates corporate identities, postage stamps and posters. The Special Collections of the University of Amsterdam Library honoured Irma Boom with a major retrospective exhibition of her work, now traveling to Paris. To accompany this exhibition she produced an exceptional catalogue; this miniature book contains a complete overview of her work, now re-printed in a slightly bigger version and with more pages.

Customer Reviews

I did not realise what that little book was. When I got it , a wonder happened. The lilliput format and 800 pages gave me en sense of beauty and astomishment. Irma Boom can make me happy and give richness to what mostly is an utility object as part of learning or reading. This is art and crafmanship. Thank you Irma. Ghislaine Bromberger

I love that I have a piece of design history. Irma Boom is one of my favorite book designers. I think she is fabulous. And the book is beautiful.

This is really a small marketing piece that is difficult to connect with. I wish her large scale books

were more affordable because this belongs in the "Tiny' Tiny" section.

It's amazing how something so small can have such amount of information, and can be so beautiful at the same time.

A treasure, a total delight, this book is totally-wonderfully-wild and utterly crazy. I keep a magnifying glass, nearby, so I can savor it.

Absolutely unique

It's Irma Boom, what else do I have to say. Love it!

Very impressive book, and designer.
