Baby For The Cyborg General: Cybernetic Hearts #5 (Celestial Mates)

Synopsis

When Celestial Mates agent Freydon Rote whisked Carrie from her living room 430 years into a grim future, she never imagined she would end up mated to the cyborg general. She didn't anticipate coming to love the other cyborgs like family, forging alliances, or winning a seemingly unwinnable war. Most of all, she never imagined having DVS84's baby, but it's almost time. She's about to give birth, and everyone in the base is ready for the momentous occasion. Are a human woman and a cyborg general ready to meet their precious baby? Will Freydon Rote make an appearance? (Hint: Yes.) Find out in this latest installment of the Celestial Mates (and final installment of the Cybernetic Hearts) series by USA Today bestselling author Kit Tunstall, writing as Aurelia Skye.

Customer Reviews

A wonderful end to a series. It's a bit short but its good to know that all is well in their world.

I hate to see this series end. This book brings us full circle. Carrie and DVS84(Davis) was the first

couple to be matched by Celestial Mates matchmaker Freydon Rote. Now they will be the first couple to bring a new generation to life. This story is a quick read used to tell the progress and future plans of the cyborgs and humans now that their war with the synthetics is over. It's definite read for fans of the "Cybernetic Hearts" series.*I received an Advance Readers Copy of this book which I am voluntarily reviewing*

The synthetics are destroyed. The humans, cyborgs, and the Grecopans are working to heal the planet. Carrie is the first to become pregnant, she and Davis are awaiting the birth of their child. Sexy and sweet read with a happily ever after, wonderful well written characters. This is a perfect conclusion to the Cybernetic Hearts series. Fantastic book.I voluntarily read and reviewed an ARC of this book.

This is another excellent steamy romance by an excellent romance author! Carrie and Davis began this series and this is the culmination of their love with a child. I am not going to tell you the sex or name. I received a gifted copy. I am voluntarily leaving an honest review. I honestly love this story and this series!

This sweet short epilogue to the Cybernetic Hearts series mainly focuses on Carrie and Davis, but we also get a glimpse of the other couples in the series. While this series has been action packed and portrayed a rather dark future this story is so hopeful and leaves us with a smile and a sigh.

I received this book as an arc read but I volunteered to write a review.This was such a good way to end the story of Cassie and Davis. Baby's are such a wonderful gift, but to be able to have one under their circumstances is a true miracle.Their are the first to have a baby in hundreds of years. It's true life will always persevere.I will be recommending this book along with the others to family and friends. Joy

While I'm sad to see this is the end of this series? It answered a few questions of how the world was going to be fixed and how the others will find there mates also. I just hope that they find more enclaves with arks too. Hint hint maybe two more books so more humans and arks can be found. Because a world without bacon is sad. :-(Just saying Bacon makes me smile. :-)

A very well written story that made me want to know if everything would work out for Carrie and

DVS84 with them being the first couple to have a baby. I would like to know how Freydon Rote came to be and if he ever gets his happy ending, I think he needs one! I received a free copy of this book and voluntarily chose to review it.
