Customer Reviews

Good map if you are traveling around Europe. My parents insisted on a paper copy despite having GPS in the car and three iPhones. We didn't end up using it much, which I expected. It was nice to have to look at on the airplane to see what cities and towns were along our route.

It was great to have this map with the details. It is a little tricky with the names being in the native language, but it's actually a good thing since that's how you see the names on the street signs, etc. while you're there.

This map took us through Germany, the Netherlands and Belgium. We did need supplemental maps for cities, but it was better than GPS for highway driving.

I'm over 50 years old and was excited to get the map to take on a vacation to the region. However, upon getting it in the mail I opened it and it was fairly big. Way too big to open in the car. The writing

and the boundaries on the map were difficult for my eyes to see. Not recommended for elderly or people with marginal or poor eyesight. Sorry.

We used it on trip through Germany. Michelin makes great maps. Easy to read, comprehensive and up to date. I'd buy more as needed.

Wish it was in English and more easily readable

Better than find roads on computer's screens. You open it on your table and have all the country upon your eyes. Easy like this!!!

I choose this map because I have used their maps before and there is a lot of detail that is included. I don't know why I did not buy it from Barnes and Noble. Maybe it was just laziness. I would recommend this product to a friend but who has been out of the country!
