He is the author or coauthor of numerous articles on a variety of topics related to religion, deviance, and interpersonal violence. He is the recipient of the 2004 Howard A. White Award for Teaching Excellence. He received his doctorate in sociology from Washington State University in 1989. Following his doctoral studies he was Assistant Professor of Sociology at Seattle Pacific University in Seattle, Washington.

This book is a fairly engaging read as far as textbooks go. All the major topics are covered: physical abuse, sexual abuse, neglect, psychological abuse-- there is even a chapter on less common forms of abuse such as Munchausen by proxy. What really sets this book apart is the strong emphasis on

current research; rather than blithely asserting their opinions, the authors time and again back up their statements with citations from academic journals that lend credibility to the text. To keep things interesting, the authors mix in a number of real-life stories so the topics they're discussing come alive and we are reminded that the theories being discussed pertain to real children and families. If your interested in child abuse and neglect but don't know where to start, pick up a copy of this book and you'll be well on your way.

Not a fan of textbooks or school, but I have to say that it was convenient to have the textbook online! Can search up anything and it really is organized well. Would buy online textbooks again! Thanks for good instant arrival!

Had to get this for my class Child Maltreatment & Advocacy Studies. I will read more after class and more in depth. I think this book is well written. So sad. Only thing is is that it is boring looking textbook and a lot of words and so grey lol. I guess that's college! :P

Bought it for a college class. A lot of information, but dry approach.

This book was required for college classes. has the best prices for textbooks and other required reading for college.

Lots of information but very dry

needed for school
