Great resource to have whether you are using a wedding planner or not! So many amazing lists, in

an easy to read format. The book itself is very portable making it easy to take with to appointments. I would recommend this book to any future bride regardless of how "in depth" they are involved with the planning process.

Bought this as a gift, but after looking at it, I wish I had it for my wedding!! Great tool for planning!!

Absolutely love the book. Had to order it a few times before I could get one that was in at least ok condition. The first two were in awful condition. Finally the third one was good, only a few bent edges

This book was OK. A LOT of the stuff in it is common sense unless you're clueless about weddings. If you have a wedding planner of a sort don't bother with this as MOST of the stuff in here is on Pinterest. If you are a person who needs things laid out in front of you, this is a good guide to go along with the use of their website.

its a good book to give you a timeline of things.. but its not necessary, because you can google all of that info for free. still not bad to have if you dont want to waste your time googling. lol

Super useful and very good starting point. I'm planning a wedding and this has been a great guide for our very early stages

Very detailed lists for wedding planning :)

This has been so helpful in planning!
