Signing Made Easy (A Complete Program For Learning Sign Language. Includes Sentence Drills And Exercises For Increased Comprehension And Signing Skill)

Synopsis

A comprehensive guide to learning and using Sign Language in everyday life The authors of the acclaimed Perigee Visual Dictionary of Signing and The Pocket Dictionary of Signing have created a text and workbook in one. This volume will teach you how to use signing in English sentence format. Signing Made Easy offers the most thorough, step-by-step approach to learning sign language, complete with drills and practice exercises to increase signing ability and understanding. Presented in a large-format, easy-to-follow design, this book includes:

- More than 3,500 different signs, with clear illustrations and descriptions
- Instructions on how to sign in complete sentences
- Exercises for learning how to give and receive signs
- Drills to reinforce vocabulary retention
- Chapters organized by subject -- from "Work and Careers" to "Family and Social Life" to "Food" --that build progressively on previous lessons
- The complete manual alphabet
- Spelling exercises throughout
- Instructions for forming numbers and inflections
- A complete index for easy reference

Customer Reviews

Mickey Flodin is the author of Signing Everyday Phrases, Signing for Kids, Signing is Fun, Signing Illustrated, and co-author, with Rod R. Butterworth, of The Perigee Visual Dictionary of Signing, The Pocket Dictionary of Signing, and Signing Made Easy.

Right in the books description it states "This comprehensive guide to American Sign Language..." do not be fooled by this! It is some hybrid form of SEE (Signed Exact English), AL and who knows

what. If you want to learn proper ASL and use this book to study it, you'll be disappointed. I'm sure those that are deaf will still be happy you are trying to learn to talk to them on their terms but if you are taking a college course on ASL, the teacher will have no qualms about correcting you or failing you for the wrong signs. If you are learning ASL and want to see the SEE variation, this book is good example. I've given it 2 stars for its information, layout and completeness for SEE but couldn't give it the full 5 as the description is misleading. If they change the description to state it is not ASL but SEE, I will change my review to 5 stars.

This is a perfect book for getting acquainted with sign language or relearning what you may have forgotten. Great for beginners or those of us with rusty skills. If you are serious about learning to sign this book is a winner.

yep, great book

Just as the title says. It's easy to pick up and learn, but, as with any other self-taught skill, requires discipline and daily practice. I got it to help teach my son how to use signs to tell me what he wants and how he's feeling. He's only 18 months old, so using signs is much easier than talking and he can attempt to say the words he means while signing them.

Decent book, getting a lot out of it.

Good product

its good

Helpful reference. Easy to follow
