## Synopsis

Jade believes she must get out of her poor neighborhood if she's ever going to succeed. Her mother tells her to take advantage of every opportunity that comes her way. And she has. She accepted a scholarship to a mostly-white private school and even Saturday morning test prep opportunities. But some opportunities feel more demeaning than helpful. Like an invitation to join Women to Women, a mentorship program for "at-risk" girls. Except really, it's for black girls. From "bad" neighborhoods. And just because Maxine, her college-graduate mentor, is black doesn't mean she understands Jade. And maybe there are some things Jade could show these successful women about the real world and finding ways to make a real difference.

Jade is an earnest and immensely likeable main character. This book is a quick read and is perfect for readers looking for stories of Black girls without the edgy content of so many issue books which feature Black main characters. Sometimes you just want to spend time with a character and enjoy their company. This is one of those books.

This is an absolutely excellent book. The narrator is Jade a young woman from North Portland who attends a private school and how she maneuvers through two worlds, it also speaks of having a voice, being confident in who you are and that mentors or are mentored by their mentees. I'm so excited about the voices writing and publishing currently.

I have never posted a review on , mostly because everybody else does a better job at it. I was in a very low place when I started this book, and this book helped me out of it. I finished it within hours, didn't move out of the spot I was in, not even to eat. I am grateful to this author for this book and will be sure to look out for her future works. Highly recommended and will read again.

Inspiring, real, courageous, hopeful... *Piecing Me Together* is wonderful. Renée Watson offers a new voice that should be heard and read over and over again.

Renee Watson and this story are absolutely brilliant! This story is current, relevant, and touches on different aspects and perspectives about issues and situations that our youth face through the eyes of a high school age African American female.

I never never read this perspective from a young person. Seeing situations from another's side clarifies many previous thoughts.

This book captured my attention at the first page. I thoroughly enjoyed reading this book. I couldn't put it down. I enjoyed going on journey of self-discovery with Jade.

Good book
