researcher and typist.

Very useful book for musicians.

I have found it concise, precise and a pleasure to look through for certain information when I need it. I would definitely recommend it to all my musical friends and students.

Wonderful! A must-have!

I'm a music minor, so I need to look up musical terms a lot, that's where this book is very helpful. Nothing bad about it, good book, and good price!

This dictionary was far more complete than I expected, based on the price. It is an excellent introductory dictionary for music students or anyone who does not have the unabridged version. I highly recommend it. 's service is awesome as well!

I need this every day for definitions that I can't keep in my head! Students always want to know the fine details of the Italian language of music. Now I have it.

Great book!

It arrived promptly and is useful for what I wanted. No more can be added to what I have already said.
