the layout is 2 thumbs down. will not buy anymore maps by this map maker again. the state of fl is long and very thin (not how we r use to seeing it), 1/2 of the top on back of map. not as detailed as they say. the major cites r not road detailed just your basic large highways like most maps. so if u r looking for a foldout map that u can see all of fl without flipping it over then back over to map out your fl road trip, this may not work out. :(

Good

Excallant Map!

When I pick up a Van Dam map - and the Florida map is no different - I immediately want to go to that place. First the cover is SO intriguing and seductive. Seems to be a pattern on other Van Dam maps, that cartographic design is worked into the image. And this one is sensuous. Opening up the map I wanted to immediately rent a car and drive from one end of the state to the other -- from Pensacola to Key West. The map is clear, beckoning, uncluttered. With lots of detailed insets. The mark of good design is to not call attention to itself, but draw you in. Where's that car?

Lovely to look at but also so practical. Clear to read, easy to open and full of interesting places to check out. Very good for getting an overview of Florida that GPS can't match.

This map is the first thing I will pack for my upcoming trip to Florida! I always rely on VanDam maps for comprehensive overview, clear directions and surprising tips.

These maps are smart, durable, easy to read, savvy to the info you need, and what a great pleasure to see the whole state unfolded before you.

Who wouldn't want a map with that crazy, seductive cover! And the promise is fulfilled inside, with clear, easy to read graphics. The fold-out format is used friendly, and the laminated finish holds up to humidity. If you're Florida bound, this map is a must!
