As I look up a few stencils that are NOT in this book, I see that the ones that ARE in the book, aren't even Correct. IE: Happiness has two CLOSED boxes in the majority of the symbols found online, this has none. It's similar, but not connected in the many places they are in other versions I found. In fact, none of the ones in this little book are the same as most of the ones found online. I feel I cannot use this at all with any confidence that I am getting across what was intended Major bummer. Glad it was cheap! Worthless in my opinion. Whoever Marty Noble is, he/she did not try to get them correct.

Stencils for my Chinese students to decorate ceramics. I spray them with acrylic spray to insure they hold up.

Thought these would be bigger. All the holes in the stencils are not punched out so I am not sure if that is the way it should be or if I need to punch them all out. Will have to look up the symbols to make sure they are correct before applying. Looks easy and hassle free to apply, but will have to tape it to the wall to do the stencil. looks like you can reuse.

fun

They are slightly larger than I expected. I purchased these to use as stencils to apply fake tattoos. These are too large for a typical arm tattoo, at least on me or any of my friends. However, I like them and will find another use for them.

I bought these to use with special art projects to do with my 2 year old great niece. Hold up well.

Nice stencils. Perfect for leathwork crafts.

Great. I separate the pages and use these in my social studies class for the kids to make red paper banners for Lunar New Year. They use gold Sharpies.
