How To Be A Financial Grownup: Proven Advice From High Achievers On How To Live Your Dreams And Have Financial Freedom

Synopsis

Bobbi Rebell, award-winning TV anchor and personal finance columnist at Thomson Reuters, taps into her exclusive network of business leaders to share with you stories of the financial lessons they learned early in their lives that helped them become successful. She then uses these stories as jumping off points to offer specific, actionable advice on how you can become a financial grownup just like them. Financial role models such as Author Tony Robbins, Entrepreneur Ivanka Trump, Shark Tank's Kevin O'Leary, Mad Money's Jim Cramer, Designer Cynthia Rowley, Macy's CEO Terry Lundgren, Zillow's CEO Spencer Rascoff, PwC's CEO Bob Moritz, and twenty others share their stories with you. The book walks you through some of the biggest money decisions you'll make regarding real estate, investing, debt management, careers, friends and money, family finances, and even health and wellness. You're guided by proven examples and given the information you need to make choices that are right for you. *How to Be a Financial Grownup* will especially appeal to you if you're interested in new ideas to better manage your finances, especially if you're going through life changes where you have to pay more attention to your financial well-being.

Customer Reviews

The author assembles the financial histories of very successful individuals like Kevin O'Leary and Tony Robbins, so that the reader can learn from their hard won financial lessons about the practical applications of creating and maintaining wealth. Using these financial role models and their examples, the author reveals how prosperity is available to anyone willing to stop resenting those who have achieved their dreams and instead learn by example and transform themselves and their financial world. The book is a vast reservoir of knowledge that the reader will want to revisit often.

I really enjoyed this new book. I think of myself as a financial grownup already, but I was curious anyway. To my surprise, I learned a bunch of new tips and tricks to save money. That said, the best part of this book is that it isn't boring. This is a super entertaining book. It's an easy read because it is full of short stories from famous and fascinating business leaders.

I love this book, such a great insight into what it takes to be a grown up financially. Heck Tony Robbins wrote the intro, and he if can't motivate you no one can. Fun take on how to get yourself moving forward towards your financial goals whether you are just starting out or trying to make another billion dollars..... give it a read, and maybe you can find some motivation to finally be a financial grown up yourself. xo

Amazing book! Fascinating stories, learning so much about the financial topics, -debt, credit cards and more... Highly recommended!!!

A very engaging read with interesting perspectives from those who made it. Easy to understand which is just my style and broken up into small pieces so it's also easy to digest. Very, very helpful, reassuring and motivating. I think that reading this book is actually my own financial "Grownup Moment!"

The book is full of what you would think is common sense, but every story and lesson is a reminder of how to better manage money. I thought I was on the right track to better budgeting, only this book has helped me realize where to cut back on spending and how to better spend/invest my money.

I loved reading Bobbi's book. It was full of advice and unexpected stories from even more unexpected people. The book was the clincher for my financial grownup moment: after renting for many, many years, my husband and I finally bought our first residence. Thanks Bobbi!

An easy to read but very thorough book about personal finance. Excellent for a young person just out of college or anyone who is unhappy with the progress of their financial life. Nice conversational tone as well.
