Faroe Iceland Greenland

Synopsis

This third edition of 'Faroe, Iceland and Greenland' contains extensive revisions as well as improved information on the three areas that the pilot covers. Much of this new data has been provided by RCC members who have visited the area since the first edition was published. The editor Willy Ker, has drawn heavily upon their notes and sketch charts to provide what is the only comprehensive compendium of information on these cruising grounds in the northernmost part of the Atlantic Ocean. Faroe, Iceland and Greenland, lands of the Sagas and the Norse settlements, are linked by history. Each area is totally different in character, but all share long daylight hours in summer. In common, are a friendly people as well as challenging and rewarding sailing. Willy Ker has cruised in the whole area for more than twenty years, including the West Coast of Greenland from Cape Farewell to Thule and exploration of most of the little known East Coast as well. He is a Fellow of the Royal Institute of Navigation and a recipient of the CCA Blue Water Medal and the RCC Tilman Trophy.

The RCC Pilotage Foundation was incorporated as a company limited by guarantee in 2005 and is a registered charity. It is run by volunteer members of the RCC. The Foundation publishes pilotage information through books and a range of media accessible via its own website RCCpf.org.uk Creation of new RCC Pilotage Foundation publications and updates to existing publications are only made possible through the supply of information from around the world by generous-minded yachtsmen and women, and the dedicated work of authors and editors.

The only cruising guide that covers all 3 of these areas for the yachtsman. Excellent information on areas of the world that are far, far of the beaten path!!! I had to do an emergency diversion to Greenland with my container ship once and I really wish I had had this guide onboard. On the same ship I use to run to Iceland all the time and can verify that the information given about the southern ports is accurate.
