Antigua And Dominica Travel Map 1:35k/1:50k

Synopsis

This is a vastly improved map of Antigua. When we first published this title, the digital data was state-of-the-art. Fortunately, advances in digital data base activity can now provide dramatically better mapping information, strengthening this title. The map also includes insets of St. John's (the capital) and of the famous Nelson's Dockyard at English Harbour. Inset maps of St. Barthelemy Island and Sint Maarten (Dutch)/Saint-Martin (French) and of tiny Barbuda are included. Side 2 reproduces our map of Dominica. This is the same map published as Dominica/St. Lucia and is provided here simply to improve marketing. The Caribbean islands are steadily improving ferry connections between the islands, so we are increasingly showing more than one island entity on each published map (this one shows five different island countries). The map also has two covers, so can be marketed either Antigua side outwards or Dominica side outwards.

Customer Reviews

I purchased this map for the Antigua side. The map itself is quite large when opened... 38"x 26". It is made of heavy coated paper thus very sturdy. It quite detailed and easy to read due to it's large size. On the Antigua side there are also small inserts of the city of St John's and The Dockyard affording greater detail. Adding to the list of inserts are small overviews of Barbuda, St Kitts and Nevis, St Martin, St Barth's and an overview of the surrounding Caribbean islands all of which are small inserts and not useful if you're driving but informative none the less. The Dominica side is huge. It is just of Dominica and a detailed insert of Roseau. We rented a car for our stay in Antigua and this will guarantee we will not get lost!!!! LOL Worth every cent. 1/25/15 UPDATE!!!! Just

returned from Antigua... the map is beautiful but basically useless because most of the roads do not have street signs. You're better off w the free map they give you at the car rental with landmarks i.e. gas stations, churches, etc! Guarantee... you will get lost! But, that's part of the fun, eh?

Bought this map for our trip to Dominica in March 2014. It was EXCELLENT! A must-have if you are planning on driving on the island. It was just the right size to fold it open to the sections of interest. One caution - the one-way roads are not absolutely correctly illustrated in the blow-up of downtown Roseau. The locals are very helpful though (with the clear marking on the rental cars) of honking and pointing you to the right way when you end up going the wrong way on the one-way roads. The topo lines on the map are nice. Order it on before you go - you can't find these on the island. We also highly recommend getting a GPS or downloading mapping software to your GPS before you go.

very good

Indispensable, especially in Dominica. Have been using for ten days and this map has been a life saver. Highly recommend it

I wish I could find just a map of Dominica. I am not sure why Antigua is included on this map.

Great and accurate map - helped us a lot throughout our trip
