Global Perspectives (4th Edition)

Synopsis

For global studies courses across the curriculum, Ann Kelleher and Laura Klein's *Global Perspectives* provides a broad analytical framework for understanding cultural, economic, environmental, and political issues. This brief multidisciplinary primer introduces the basic concepts needed to study global issues as well as the differing perspectives that scholars, policymakers, and individuals bring to these issues. *Global Perspectives* helps students make sense of short and long-term problems facing the world in the twenty-first century, historical and current events that led to and fuel these problems, and the consequences of their choices in an era of globalization.

Customer Reviews

"This book provides a wonderful introduction to global issues; the authors consider not just political conditions and nation-states, but also history, culture, economics, and environment to best help students bridge the gap between concepts and the real-world complexities of our time."
—Ricardo Salas, Fullerton College

For global studies courses across the curriculum, Ann Kelleher and Laura Klein's *Global Perspectives* provides a broad analytical framework for understanding cultural, economic, environmental, and political issues. This brief multidisciplinary primer introduces the basic concepts needed to study global issues as well as the differing perspectives that scholars, policymakers, and individuals bring to these issues. *Global Perspectives* helps students make sense of short and

long-term problems facing the world in the twenty-first century, historical and current events that led to and fuel these problems, and the consequences of their choices in an era of globalization.

The book is in perfect shape(almost like new) considering that it was used. The writing is a little vague but readable. I am using it for class since it was the book to purchase for it. Regardless, I am very interested in reading it till the end even if in class we don't have to. It has helped me understand the concept on globalization in a broader perspective.

Rarely ever open this book up to study for the class but it is there just in case I ever wanted to. The motivated student would say that this book comes in handy for exams.

It was neat and really looking new

It looks like it's been through a lot, but it will serve its purpose

love it

as described

Touches lightly on issues I have no personal investment in. The digital version is a bit different than the text, and page numbers don't line up with physical copies I've seen.

great price for college book
