Surf Shacks: An Eclectic Compilation Of Surfers' Homes From Coast To Coast

Synopsis

Surfing is a way of life. A life dominated by the waves and the tide with a cozy place to pause in between. Creative personalities crafting bold homes, Surf Shacks illustrates how surfers live both on and off shore. Many abodes can fall under the label of surf shack: New York City apartments, cabins nestled next to Royal National Park, or tiny Hawaiian huts. Surfing communities are overflowing with creativity, innovation, and rich personalities. Surf Shacks takes a deeper look at surfers' homes and artistic habits. Glimpses of record collections, strolls through backyard gardens, or a peek into a painter's studio provide insight into surfers' lives both on and off shore. Through anecdotes and photographs, illustrations and conversations, Surf Shacks reveals a more personal side to surfing and its eclectic cast of characters.

This book is incredible! Beautiful photos, inspiring interviews, great design. Such a cool, eclectic collection of surfers from around the world!

This isn't a design book. You won't be told how to decorate your Craftsman or Ikea furnished apartment to look like a Hawaiian Tiki bar. It's a book about people who for the most part live by the ocean, don't own million dollar homes and I loved it! Don't confuse this with Surf Shack by Nina Freudenberger which was a waste of printing paper and ink. If you think of surfers and how they live then this is the book for your daydreams.

I don't surf, but I love this book because it's representation of a lifestyle that I admire. Surfers travel the world, live in exotic places and become immersed in local cultures and traditions. Surfers live by the beat of their own drum, and that lifestyle is detailed in this book with beautiful photographs and fun to read interviews and stories about surfers all around the world. It extends beyond surfing as well. You get to know the people that live in the "shacks", their families and their daily routines from what they eat, drink and do for fun (other than surfing).I highly recommend this book to anyone that likes art, culture and the authentic surfing lifestyle.

Was underwhelmed with variety and visual presentation of featured shacks.

Let's start by saying I returned the book. Simply not enough pictures to warrant the title ! Mainly interviews, which were much too long, and few pictures to back up what the owners said about their homes. It left me constantly turning the page for more, only to find another new interview which left

me feeling exactly as the previous one did. I found it frustrating. Author should have interviewed fewer people and added more actual photos of "SURF SHACKS".

What better way to experience the modern surf culture than to take a look inside of some of the most interesting and influential surfers' homes. As always Indoek delivers a product that's for surfers by surfers. Even if you're not a surfer you'll be inspired by the aesthetic and design of each of these individual's homes. The book is beautifully designed and the content is crafted to a level that makes this a collectors item. Highly recommend! I'd pick one up before they're gone.

I was expecting interesting eclectic homes. I was disappointed for the most part. Lots of basic homes with a few beach accents. It seems like the main criteria for being included in the book was being an insider in the surf industry.

If you're into authentic surf culture, lifestyle, art, and design this is an awesome window into that world from people that live and breath it. The book is artfully executed inside and out. I'm surprised to see reviews about it not being about interior design "No, it's not put out by interior designers or a major publisher trying to co-opt surfing as a trend, however, it is absolutely full of interesting homes and decorating ideas.
