Officiating Volleyball (NFHS Officials Education Program)

Synopsis

If you're like many volleyball officials just starting out, you've played the sport in the past, you love the competition, and you're looking for a way to stay involved. But you know there's more to officiating than just knowing the rules. *Officiating Volleyball* offers up-and-coming and seasoned officials comprehensive guidelines for officiating matches with confidence. Based on officiating mechanics endorsed by the National Federation of State High School Associations (NFHS), *Officiating Volleyball* is the definitive guide for high school officials. You'll learn what's expected of you as an official, including your match responsibilities, procedures to follow, mechanics to use during the match, how to enforce infractions, and how to apply the rules in situations such as substitutions, player alignment, and the new libero position. *Officiating Volleyball* is not a rules book--it's a practical resource for implementing correct mechanics as developed and approved by the NFHS. Officiating mechanics are supported by nearly 100 photos and illustrations of positioning and signaling. Real-life cases demonstrate correct rulings, point out common officiating errors and how to avoid them, and challenge you to make the right call. A glossary of key volleyball terms is also included. It's a resource sure to have a place in every official's sport bag.

Book Information

Paperback: 129 pages

Publisher: Human Kinetics; 1 edition (April 4, 2007)

Language: English

ISBN-10: 0736053581

ISBN-13: 978-0736053587

Product Dimensions: 7 x 0.3 x 10 inches

Shipping Weight: 8.8 ounces

Customer Reviews

Officiating Volleyball was developed by the American Sport Education Program (ASEP) in cooperation with the National Federation of State High School Associations (NFHS). Based in Indianapolis, the NFHS is the rules authority for high school sports in the United States. Hundreds of thousands of officials nationwide and worldwide rely on the NFHS for officiating guidance. ASEP is

a division of Human Kinetics and has been a world leader in providing educational courses and resources to professional and volunteer coaches, officials, parents, and sport administrators for more than 25 years. ASEP and the NFHS have teamed up to offer books, CDs, and online courses for high school officials through the NFHS Officials Education Program.

Good information but outdated. Needs to be edited and updated.

all the basic information to begin officiating volleyball. Will prove helpful when there is a question about mechanics and responsibilities

Speedy delivery. Great product.

This is a great resource for both new and veteran officials. I highly recommend it! It gets confusing when it starts to explain the section on overlapping but other than the confusing diagrams, the words themselves make sense.

It is in large print, which makes it easy to read. Gives scenarios on what could happen in a game that you are officiating.

This book is not a rule book. With a good sense of humor, it explains many ways to become a great referee by going over various situations.
