The True Joy of Cooking as Seen by a Professional Chef

This book is a wonderful read, and visually, very stunning representations of a bygone era in cooking. Lots of ideas, and lots of recipes, requiring skill and diligence but nothing the committed home cook can't do (as long as he or she can obtain the ingredients - e.g., foie gras and truffles are represented heavily, and the easier things - e.g., venison, quail, pheasant, etc.). The only disappointment - and this isn't unexpected, frankly, given the age of the book - is that the book mentions an accompanying recipe booklet, which was missing here. The recipe index at the book counts numerous recipes that are only included in the booklet, so it would have been nice and I am on the hunt. Craig Blaibourne and his collaborators, Pierre Franey and Jacques Pepin, along with many others (Julia Child, of course; Andre Soltner come immediately to mind) - heralds of a grande cuisine brought more broadly to our shores.

Came in condition expected, great purchase, fast shipping!

All as reprinted.

I received only 1 book and there were supposed to be 2 in a slip case. The time life books are great but where is my other book?

As advertised. Very nice.
