Customer Reviews

Absolutely wonderful! I'm going to get the whole series.

Excellent, simple arrangements of this work. My students love it.

Thanks

Just what we wanted

I got this for my kid, with the understanding that these are simplified versions, however, the versions in this book are poorly arranged (in my opinion) and not really great melodically, and not staying true the original piece.

This is a book of "so-so" piano arrangements from The Orchestral Suite The Carnival of the

Animals. I have done a recital with my students using this theme and have used The Lion, Kangaroos, The Cuckoo which I found satisfactory. My favorite piece "Fossils" was arranged quite poorly. The story in between the pieces we didn't use at all. I give 3 stars. There are much better arrangements out there.

The book that is shown and the book that is described are two different books. I intended to purchase the children's book by Philip De Vos which is described in detail on the page but got the pictured book instead (sheet music). These are two very different books - beware!
