David Zinczenko is the #1 New York Times bestselling co-author (with Matt Goulding) of the Eat This, Not That! series, (which has sold more than eight million copies in North America), the Abs Diet books, The 8-Hour Diet, Eat It to Beat It!, and, most recently, Zero Belly Diet. He is the award-winning former editor in chief of Menâ™s Health and editorial director of Womenâ™s Health, Prevention, and Best Life magazines. The nutrition and wellness correspondent for ABC News, he is also editorial director of Menâ™s Fitness and CEO of the media company Galvanized. He lives in New York City. David Zinczenko worked with Jason Lawless, the executive chef at White Street in New York, to develop most of the recipes in this book. A graduate of Scottsdale Culinary Institute, Lawless has cooked at renowned restaurants such as Tabla, Mix, and CafÃ© Gray, and he ran the kitchen of Toqueville. He also served as executive chef at the AAA Four Diamond Woodstock Inn & Resort in Vermont.

I have been on this diet for about a month and am not a test panelist. I have not lost any significant weight or inches yet, but I do like the way this diet has made me focus on what my food contains instead of what it doesn't contain. I was guilty of eating things that were "low fat" or "low sugar" but didn't focus on if they contained anything significant nutrition or were just empty calories. I also like how you can eat lots of real food and don't have to starve. However, for this diet to work for you, you have to be willing to shift the way you think about food and be willing to put a lot of time, effort and planning into meals. I think you have to be driven by the desire for good health more than the desire to lose weight. I have to say I am skeptical of the weight loss claims of some of the reviewers. The thing I have really noticed about this diet is how wonderful my digestion has been. I didn't really had significant problems before, but I really feel good on this diet. I noticed the difference after having one "cheat" meal at a restaurant and noticed that overly full, sort of bloated feeling I no longer have on this diet. It is most likely due to the fact that this diet eliminated gluten and most dairy.

I found a few recipes in this book (Apple Breakfast muffins) that have made it into regular cycle but few options for those that don't want to eat meat every day.

The recipes are delicious, they've done a great job of balancing flavors and food variety. There's a good amount of photos as well, and the recipes actually fill you up, this guy knows his stuff. I was excited to find a diet plan that works and doesn't require constant purchasing of shakes or pills every month. The recipes take about 10-15 minutes per meal, not bad but not super fast. None of them have been difficult, just not extremely fast to make. I would recommend this book, especially if you have tried other diet plans that haven't worked. This one works but you HAVE to stick to it.

Not as many recipes as I had imagined. Ingredients that are suggested are expensive where I live.

A "must have" for anyone who wishes to change their life and jumpstart their health without visiting the gym! The best companion to "The Zero Belly Diet" by same author.

I don't buy many cookbooks anymore as I have so many, but this one was well worth it. Simple, everyday ingredients with a sensible plan and I love that there's a photo of every recipe. I feel much more motivated to cook a dish when I know what it's supposed to look like.

I do not have a gluten sensitivity but this diet (avoidance of gluten) has reduced my waist by 2 or 3 inches!

Enjoying all the great recipes. Found it helpful in my wait loss plan.
