Interview Answers In A Flash: More Than 200 Flash Card-style Questions And Answers To Prepare You For That All-important Job Interview!

Synopsis

Job hunters in today's tight employment market need all the help they can get. Help in preparing for a job interview is especially important because the interview is where prospective employers decide whether or not to hire an applicant. Using the tried-and-true Q&A format, this freshly updated book prepares applicants to do their best during an interview. Each page asks a typical job interviewer's question along with an explanation of why such questions are typically asked plus tips on how each job hunter can customize the best answer to fit his or her own situation. Sample responses appear on the page's reverse side. The book covers more than 200 potentially thorny questions such as--
Work background and education--with questions such as "Have you ever been fired?" or "Why didn't you finish college?" Skills and competencies--with questions that include "You appear to be overqualified for this job. What would cause you to take such a position at this time in your career?" Personal values and goals--such as "After six months on the job, what will be the most annoying thing about you?" Tricky job-fit questions--such as "What is your current salary?" or "What do you expect your starting salary to be?" The book is designed so that pages can be pulled out, selected, shuffled according to need, and used as flash cards for pre-interview practice. New to this edition is a personal branding checklist. Here in its new, updated edition is an unusual job-hunting tool that offers solid preparation for that very important step toward career success.

Customer Reviews

(back cover) Here's the help you need to land a good job in today's tight employment market 200 Questions like those asked at job interviews Winning Answers you can adapt to fit your own

situation A flashcard-style question on every right-hand page Sample responses on the reverse page "Why did you leave your last job?" "Where do you see yourself in five years?" "Have you ever been fired?" "Why should we hire you for this position?" --This text refers to an out of print or unavailable edition of this title.

This is a great source for interview prep. The questions are behavior based. The format is questions on 1 side, suggested answers or approach to respond on the back side of each page. My objective was to find current behavioral based questions to review and develop responses to - this book hit the mark. I've used it numerous times as the basis for prep and I've secured the job each time. For those interviewing, the other key component of preparation is development of PAR statements (google it).

I recommend this book all the time. A very practical way to learn the art of successful interviewing. It not only quickly outlines interview basics, but gives you questions and teaches you how to answer with an explanation, samples and even space to fill-in your prepared response. The flashcards can easily be flipped through so you can pull out questions to specifically practice for your next interview. Best interview prep tool I have found

It has a lot of good advice

I use this to help teach interviewing skills in a college-level business communication course. Extremely helpful in explaining WHY interviewers ask certain questions and in guiding students through developing their own targeted responses. I use the flashcards in exercises and impromptus.

great for managers and employers

Cheap and good quality. It is completely new. I bought it for one of my classes, and it is useful.

The tips in the book helped me impress the interview panel, score the job, and were things I never would have considered!!

Good book. Not so much because of the answers to interview questions they provide, which are actually also pretty good by the way, but more so for preparing you for the type of questions and the

diversity of questions that you may face in an interview. If you have not been to an interview in a while, then it is worth buying for that reason alone.
