Seaway Trail Lighthouses is a very nicely illustrated little volume that gives loads of information on the lighthouses along the Seaway Trail. Prior to moving back east, I probably would have never thought to find a copy of this little volume. However, I'm now in the process of using it to plan a photography trip along the Seaway Trail, probably some time later this summer for a future Marine Photography spread that I'll write for Great Laker magazine (Harbor House Publishers, Boyne City, MI). The book is inexpensive and makes a very nice addition to the library of anyone with an interest in lighthouses. I highly recommend finding a copy of this little volume. If you do order one, be certain to inquire if the color map is included with it.

Good but not great
