These are the maps and the information to truly do a walk through and beat this game with as few as 4 lives - if you're playing on an old original console and can leave it on while you sleep and go to work, etc. It won't help you to do that on the new classic edition in as few lives, because that console loves to turn itself off if you leave it alone very long. These are also the screen captures and maps we would have loved to have back in the '80's when we had to make our own or get tips from

friends who played the game. Of course, it was a lot more fun that way! Legend of Zelda doesn't have the best graphics, but for those of us who have played it all the way through, there will NEVER be another game any better - not even later Zelda games. I don't know how many other players I have heard say, "I wish they would just give us THIS game again. Forget graphics, change up the map, the creatures, and the treasures, but just let us play this game in a different way!" The playability is that good. Kudos to the author for putting this together. Grab one before they are gone!

I love this book! It helped me beat quest 1 and quest 2! I definitely recommend this book for anybody that wants to play Zelda!

Excellent well written guide for a classic game. I must have for any Zelda fan! I used the guide page by page and played through the entire game. the guide is very accurate and detailed. 2 thumbs up!!

Everything you need to know to beat the game and put in a great order so you aren't stuck trying to find things.

Great product, fast shipping.....

It helped out tremendously and saved me a lot of time. The pictures were great.

Well organized, and simple it follow.

Exactly what I needed
