GACE Early Childhood Education 001 002 Study Guide: Test Prep & Practice Test Questions

Synopsis

GACE Early Childhood Education 001 002 Study Guide: Test Prep & Practice Test Questions

Developed for test takers trying to achieve a passing score on the GACE Early Childhood Education assessment, this comprehensive study guide includes:

• Quick Overview

• Test-Taking Strategies

• Introduction to the GACE Early Childhood Education 001 & 002 Assessment

• Reading and Language Arts

• Social Studies

• Analysis

• Mathematics

• Science

• Health Education, Physical Education, and the Arts

Each section of the test has a comprehensive review that goes into detail to cover all of the content likely to appear on the GACE Early Childhood Education assessment. The practice test questions are each followed by detailed answer explanations. If you miss a question, it's important that you are able to understand the nature of your mistake and how to avoid making it again in the future. The answer explanations will help you to learn from your mistakes and overcome them.

Understanding the latest test-taking strategies is essential to preparing you for what you will expect on the exam. A test taker has to not only understand the material that is being covered on the test, but also must be familiar with the strategies that are necessary to properly utilize the time provided and get through the test without making any avoidable errors.

Anyone planning to take the GACE Early Childhood Education assessment should take advantage of the review material, practice test questions, and test-taking strategies contained in this study guide.

Customer Reviews

This book introduced terms that I needed to know but it did not prepare me for the ECE GACE. I would not recommend this book. Honestly, one should try becoming a paraprofessional and get some hands on experience and then try to take the test. Relying on this book will not get you anywhere.

This book was great! It was straight to the point. The information was up to date. I study this book for about a month and passed the test the first time at the professional level. I would recommend this book to anyone seeking assistance in passing their GACE test.

This book is great for studying for the GACE. I love the diagrams and pictures!

Loved the study very much!

This guide is a must for anyone prepping for their GACE cert exam. First of all, this guide is a 2017 edition, so I know that it has the most up to date content. Many of the other guides that I saw were from last year and beyond, so this was a big deal to me. The guide is well written and easy to understand. It is also broken up into sections, so you can go right to the area that you want to focus on without having to do a ton of searching or reading the guide from cover to cover. This saved me a lot of time! There are a lot of practice questions that come with detailed answer explanations to help you get a good idea of what you'll see on the real test. I thought that the practice questions were very similar to the real ones, so I felt more confident about my score. I passed this guide on to my sister, who also took the test and said that this guide was an absolute life saver for her! I would definitely recommend this guide to others.

I would recommend this study guide to all age groups. There is so much to learn. For teenagers getting ready for college, this study guide, as well as the many others by Mometrix, prepare you for your upcoming courses and gives you a jump start in the class. It is easy to follow and the practice tests with the answer key is very helpful. Shipping was very fast and the seller has been great responding to my emails. I look forward to ordering my next study guide.

The material in this book is very helpful for preparing for the content covered on the GACE. I ordered the ETS practice tests online and many of the questions were related to the material in this book. I would definitely recommend this book to supplement your study material for the two

elementary education GACE exams.

I really like the breakdown of each section with in this review. This book proves that if you can teach it you know it. The setup of this is great and easy to follow
