Research Methods For Social Workers (8th Edition) (Merrill Social Work And Human Services)

Synopsis

Note: This is the bound book only and does not include access to MyEducationLab® with Pearson eText. To order MyEducationLab® with Pearson eText packaged with the bound book, use ISBN 0134491130. For courses in Research Methods in Social Work. Helps current and future social work professionals become evidence-based practitioners. Research Methods for Social Workers, Eighth Edition is written in a crisp, straightforward style and refers to contemporary social work practice on virtually every page. Examples are real and reflect situations that social workers encounter every day. The authors present research as a logical, non-intimidating activity that is inextricably linked to social work practice. The text contains no unnecessary research terminology or references to obscure understanding, and necessary terminology is italicized and explained. Even students with no prior research background will find it interesting and easy to understand. All content is consistent with both current Council on Social Work Education (CSWE) accreditation standards and curriculum policy guidelines. This revision is now a part of Pearson Education's Connecting Core Competencies series "comprised of foundation-level texts that foster student success in learning the core competencies as stated in 2015 by the Council on Social Work Education. Also available with MyEducationLab® This title is also available with MyEducationLab - an online homework, tutorial, and assessment program designed to work with the text to engage students and improve results. Within its structured environment students practice what they've learned, test their understanding, and receive feedback to guide their learning and ensure they master key learning outcomes.
