## Customer Reviews

Pamela Rose Haze is an adjunct instructor at Kendall College in Chicago. She has taught French in the Chicago public schools and was the assistant dean of adult education at Harold Washington College.

I already read French, but I do not speak it well enough for everyday conversation. I am able to visit a French-speaking region, and enjoy the trip, but I want fluency quickly. I am happy to finally know what the "c-cedilla" is, and how to pronounce it. The book is well organized, and the exercises/lessons help to build skills for a more comfortable visit to cities like Montreal, Paris, or Casablanca. After reading this book, more books in French may support the desire for French fluency.

I'm fluent in French but since I live in USA I do not have the chance to speak it so I decided to buy this basic grammar and exercise book to keep practice a little. My daughter wants me to start speaking French to my 3 year old grandson and this book offers me basic vocabulary and common expressions which will help me to teach my grandson step by step. Will also be useful for beginners.

I was using this with a tutor. though I don't remember my French anymore. This is a colorful book on the outside and helpful on the inside, but best to go over with a french person, but we all learn and have different styles of learning.

Very good book :) Really loved it.

still working on it

I needed this book for a french course in college and saved over \$90 purchasing it here on , can't beat that price and the book did the job!

I purchased this workbook to review my French. The exercises are great--not too hard, not too easy. There are answers in the back so you can check your work. Finally, there are reading selections that get increasingly more difficult and help me to gain fluency. The one thing that it lacks is vocabulary practice exercises.

The first book Italian Made Simple I bought couple years ago at UCLA medical store and I really learnt some italian and it encouraged me to by French Made Simple, so, I could review very well the launguage I have studied many years ago. But the reviewers should be more careful about misspellings.
