5 Ingredient Slow Cooker Cookbook: Quick And Easy 5 Ingredient Crock Pot Recipes

Synopsis

5 ingredients + 15 minutes preparation time + Slow cooker = Fabulous One Pot Meal Have you ever found yourself going home, tired after a long day, only to discover that you still have to cook food? The prospect of having to prepare several ingredients, use a frying pan or an oven, and then perform other complicated and time consuming tasks may either make you to order out or skip dinner altogether. If you think about it, using a slow cooker can solve all this. It will make you save time and energy and money. Whatâ™s not to like? On top of that, if you only need five ingredients to prepare your meals, and 15 minutes to make it, itâ™s even better! Slow cookers allow you to go home with food not only ready for you to eat, but also still tasty and warm at the same time. All you have to do is to prepare the ingredients in the morning, put all of them in the slow cooker and leave it. No mess, no dishes to clean, and not much effort compared to other kitchen appliances. This also means less work and faster preparation time. You arrive at home with a one-pot meal ready to eat. It will give you more time to enjoy your meal. Compared to ovens, slow cookers require a significantly lower amount of electricity. This means lower bills for you to pay. Another money-saver is that with slow cookers, you can buy the less expensive, tougher meats. Instead of the expensive choice cuts, you can use the tougher meats because the slow cookers will make the meat more tender. Inside find: Useful tips for cooking with a slow cooker Succulent beef recipes like the cowboy beef; Mouth-watering chicken and turkey recipes; Easy pork dishes like the apricot- glazed pork roast; Delicious fish recipes like the garlic butter tilapia; Delectable vegetarian meals like the artichoke pasta; Luscious desserts like the chocolate cake; Weekend breakfast dishes like the French toast casserole. Take note that I donâ™t count salt and pepper, water, and cooking spray as ingredients. Let's start cooking delicious meals today! Scroll back up and order your copy today!

Great Slow Cooker Cookbook that anyone can win with
By Glen Buffum
This is a pretty good Slow Cooker cookbook. I have tried a few recipes. They were simple to prepare, resulted fully cooked as expected and tasted great. There was only one recipe that I was not please with, but that was out of 6 different recipes that I tried. 3 of the recipes I would take away as keepers that I would cook routinely.

Perfect gift for the new full-time worker in your life!

This is an easy to grab booklet more than it is a book. Be honest. There are hardly any cookbooks with recipes for five or fewer ingredients which are written save for the wording, "Five Ingredients or Less!" I find this the ONLY go-to five ingredients or less recipe collection worth ANYTHING! The recipes definitely have a, "I was in the kitchen all day making this roast," taste. The recipes also minimize the two to four step processes before the five or fewer ingredients can begin cooking in the slow cooker whenever possible. Although we haven't tried ALL of the recipes, you get to feeling that Louise (Davidson) is like an aunt or a grandmother sharing some very valuable shortcuts she's learned through the years.
Go, Louise! Some of these reviewers are just getting too picky for what they've bought and expected! You ARE a good cook and thanks for making some basic slow cooker recipes even easier and as tasty as if they were a lot of trouble!

Just the basic I wanted BUT the editing sucks sour lemons. I'm dyslexic and would have done a better job. Four stars because basic cooking is a good way to save money.

Very good cookbook with simple, ease to prepare recipes. have just become a crockpot user over

the last few months. my crockpot is now my best friend!

I use this book all the time. It's very simply explained and allows you to use some creativity in addition to giving you the basics. I love how simply the instructions are laid out. Would love to find out if there are other books like this for cooking.

Best quick and easy slow cooker cook book ever, gotten this for gifts and for myself. It is a hit. My only wish is that it was a little longer.

Slow cookers are the best way to cook, when you have a life to live, and can't, or don't want to spend a lot of time cooking.

anyone that loves cooking with a crockpot will love this. it has breakfast lunch and dinner and super easy to follow instructions
