ISBN-13: 978-1560768388

Product Dimensions: 0.2 x 8.5 x 10.8 inches

Shipping Weight: 12.8 ounces

Average Customer Review: 4.4 out of 5 stars 8 customer reviews

Best Sellers Rank: #569,050 in Books (See Top 100 in Books) #234 in Books > Science Fiction & Fantasy > Gaming > Dungeons & Dragons

## Customer Reviews

Advanced D&D Monstrous Compendium Vol. 1, A must have for any serious D&D player. Get ahead of the party and own that bitch.

This review is about seventeen years late, I suppose, but I thought I'd drop a little information for the next rare and random person looking at this. First of all, the book has more than 100 new monsters, from various sources, such as alternate campaign settings and magazine articles. It's a pretty interesting collection of creatures. I'm already getting ideas for implementing some of them, like the Hammer Golem, a dwarven creation used to battle their underground foes, the Al-Jahar (Dazzle), a creature that feeds on strong emotions, and the Xaver, a monster that looks like a sword. One other important thing to note: most of the creatures in here are pretty strong, with only a few appropriate for beginning adventurers. The artwork is all by Tony DiTerlizzi, who did a sizable chunk of the original Monstrous Manual. I find his work relatively primitive, but it is serviceable enough to convey the weirdness of some of these things. There are some editing problems as well, but nothing that will make the creatures unusable, and the pages aren't numbered, but it's small enough that you shouldn't have trouble finding anything. Overall, this is a nice variety of new creatures to freshen up your encounters. I'm pretty pleased with it, and am going to consider checking out the other Annuals.

Nice add on to the 2e AD&D aficionado. Shipped well.

Thank you. The Monstrous Compendium Annual, Vol. 1 was received, on time and in very excellent condition.

The best monster Manuel

awesome love it

Great product/service.

This series of supplements are good for expanding your choice of encounters if you are a dungeon master who is, for whatever reason, devoted to AD&D but honestly, look into 3rd or 4th edition.

As far as I am concerned, this is one of the best "monster books" in existence in the AD&D game. The art is fresh and vibrant ( unlike the washed-out art of Planescape appendixes), the creatures are creative and each and every one of them is capable of having an entire adventure centered on it and it alone. A few things - the spelling is horrible; the binding is simple glue spread - the book falls apart easily with time; also, the text isn't as enchanting as it used to be...This is one of the best, and I consider it a near must-have.
