## Synopsis

Immortality Has Met Its Match. Ever since the Ring of Fire, the world's vampires have seen their mortality. They won't live forever after all • not if the angels who created them decide to snuff them like candles. What do the angels want? What did their command to "restore balance" truly mean? For most, the angels' decrees mean mass murder and mass turnings | but the humans aren't sheep, and won't just lie down and take it forever. As Deacon Maurice tries to maintain order with Reginald by his side, panic consumes the Vampire Nation. The center begins to fall apart and chaos grows like cancer. But as war between vampires and humans threatens, Reginald begins to discover strange new abilities within him: to navigate through blood history like no other vampire before him. To glamour those who can't be glamourised. And seemingly, to stop time itself. Fear has reached its tipping point. War is close. Reginald might hold the key to the angels' mystery | but whatever could help him intervene just might be too late. This fresh twist on the tired old undead myth is the third in the Fat Vampire series by Johnny B. Truant • author of many bestselling series including Invasion, The Beam, Unicorn Western, The Dream Engine, Robot Proletariat, and more.

## Customer Reviews

I was hooked when I heard the \_concept\_ of this series... now look what you've done! Probably the best installment to date, totally LOVE the intensity and 'reality' of the Vampire Nation (seriously? Fangbook... I laughed SOooo hard with the parallels to today's society and the vainglorious presumption of the culture at large). But really, it's killing me with the lack of sleep induced by reading straight through until wee hours of the morning (couldn't get enough of the battles, the intrigue, and the new skills - very much awesome.) And the connections to the blogs, forums, community here in the real world - SWEET!! If you haven't picked up this series - it is TOTALLY worth the #1 Value Meal pricing to get the first three all at once. Believe it - you will read all the way through in as few sittings as possible - and be hungry for more! THANK YOU!

Good continuation of the story - I like Johnny's take on vampires and the situations he puts his characters in. Unlike the first two books, though, this one doesn't really feel complete with the cliff hanger ending so looking forward to book 4 coming out!

Reginald, Maurice, and Nikki are back in another great addition to the Fat Vampire series. Looking forward to starting the next in the series!

I really loved this series and think the books are well worth the money. Characters are like-able and the plot is interesting. For a short book it really goes by quick with the twists and turns and the humor. I cant wait to start the next book already.

Johnny presents to us again a wonderful sequel in the Fat Vampire series. It is full of small inserts of hilarious Johnny-ness and brings us an unexpected world where all chaos breaks loose. Get this one and Johnny's other books if you enjoyed his tone, I'm sure I did.

and not quite as funny as the previous two books which were very satisfying. This was good but not as good, and the joke about the human dead bodies piling up in the closet, which at first, gave me a

chuckle, became old by the end of the book. Also, as usual, there's no real conclusion or resolution of events.

I just finished Johnny B. Truant's Fat Vampire 3. A kick ass and entertaining read. I am not someone usually reading vampire stories but as a fan of Johnny's from his podcast and other works decided to read Fat Vampire and have been quite pleased I did and am going straight on to Book 4.

I found this book better than the second Fat Vampire, but still not as entertaining as the first. I enjoyed getting to know more about Maurice's character and Nikki's addiction, but I agree with some of the other reviewers that the politics became tiresome.
