Grade Level: Kindergarten - 3

## **Customer Reviews**

Kindergarten-Grade 3-The general relationship and special friendships that have developed between these playful mammals and humans provides the framework for this easy reader. Facts about physical characteristics, social structure, and intelligence are adequately presented along with information about "Dolphin Safe" tuna fishing and canning. The illustrations are uninspired, but are clear and supportive of the text. A serviceable introduction, but this title in no way rivals June Behrens's *Dolphins!* (Childrens, 1989). Gale W. Sherman, Pocatello Public Library, IDCopyright 1993 Reed Business Information, Inc.

I love these series. But most important that my son does. I order 20+ books and he loves to read them (usually it is not that easy to make him read). I got mix of 2-3-4 levels for the second grader,

second level is too easy, but it creates some fun and he reads them with pleasure. Love it, I would recommend it.

The book is awful. Poorly written doesn't go well with pictures. It's like a bad encyclopedia other than that was packaged fine arrived on time nothing wrong with it except it's a complete waste of money and going in the next yardsale.

Great little story for my 1st grade grand son.

nice

Grandson loved it. It was a required read for his home-school program.

Grand kids (ages 7, 8, 9) are equally interested to hear and read the Step into Reading Non-fiction Animal books. (For the last 3 years) A plus for their appeal to parents and grandparents!

My 8 year old really enjoyed this book! Easy for her to read and understand, great facts! Would recommend for young readers who love animals.

My son enjoyed this book and it was just right for his level. A little difficult, but not too hard that he couldn't get through it, and was able to learn from it. This one got him interested in the topic.
