Looking At Philosophy: The Unbearable Heaviness Of Philosophy Made Lighter

Synopsis

Distilled from Donald Palmerâ™s more than thirty years of teaching experience, this text exemplifies his very successful approach to teaching introductory philosophy. Through the use of humor and nearly 400 drawings, charts, and diagrams, serious philosophical topics come alive for the reader without compromising the importance of the subject matter. Textbook author.

This was required reading for my philosophy class and it is really brilliant. A great introduction to the major philosophers from the pre socratic era to the present in a format that is easy to understand. I have already used it for other courses .

Great book, very useful. May have even bought it if it wasn't for class. My school actually ends after 's return date for this book, so I guess I have to send it back before my final. That sucks.

The book wasn't in great condition, but it serves it's purpose!

Came on time for my class and great simplifying of complex topics.

Really enjoyed this book. Had to get it for a class but Palmer did a great job presenting a heavy deep subject in an engaging way.

Interesting book. Bought it used. Great condition

Book is pretty good if you're looking for a history of philosophy text. Deals with material seriously but inevitably leaves out important explanations. Would recommend as supplementary reading or for those just beginning their journey into the world of philosophy.

Description of use was right on. Came in promptly.
