I have tried several recipe's from this cookbook. Very interesting to the palate as it is not the usual taste as an Asian Take-out or sit down Asian Restaurant dinner. This book contains recipe's for real Asian food, not American contrived Asian Food. I Mostly had problems with spices and ingredients that are hard to find in and around the local stores, including two very well stocked Asian food stores...sometimes having accesss to one ingredient and not another/others hampers and dampens getting really involved with many, many recipe's..... I did purchase, on-line, KIRFUR LEAVES----- to freeze,.... which by the way, was mailed from Thai Land.....(so my suggestion for things not found locally). This made a problem in as much as gathering to prepare.. and enjoy. ... It was frustrating. However, if one perseveres, either by internet or in their travels, one can experiment and enjoy a rather delightful cuisine. I must say, when I purchase this Cookbook for myself I was really delighted

with so many flavors and tastes portraided. My adult granddaughter was also looking forward to embracing the recipe's.

Exceptional collection of wok, stir fry, asian, thai, vietnamese, chinese, and non-asian, main, appetizer, and dessert recipes. Beautiful, full color photos accompany every recipe. I've ordered many cookbooks this past holiday season, but this one is probably my favorite. Highly recommend.

Great book. I've referred to it often. It has it all: well written, dozens and dozens of color pictures, countless descriptions. How-to. How much. How long. It's great news. Just think of it as the opposite of Fox News! You'll love it.

A great cookbook for the new Breville Wok I purchased. So many unique recipes for wok cooking. Easy to read step by step instructions and great pictures

A lot of recipes, not many practical ones. I wanted something that had more basic recipes using basic ingredients. Not the case with this book.

as expected

Beautiful photos. Great and easy recipes.

This really is a great book especially for a beginner of Asian cooking. I had never cooked with a wok before and this provides the information you need to get started. There are pictures for every recipe and accessory. The recipes are wonderful! A great book I would recommend for anyone.
