Western Mandalas Of Transformation: Magical Squares - Tattwas - Qabalistic Talismans (Llewellyn's Golden Dawn Series)

Synopsis

This work reveals the uses of astrological and Qabalistic talismans for spiritual use. It shows how the reader can learn the mysteries hidden in the ancient system of magical squares. Step-by-step instructions teach both the beginner and the experienced Qabalist how to: create mandala-talismans; how to acquire a magical Guardian Angel; correct guidelines for obtaining spiritual guides; the traditional Golden Dawn magic seals; and the Tattwa system. The guide contains sections on the meaning of numbers, planetary attributes and many other symbols. Explanations are also given about the secret techniques for awakening these images in the subconscious to energize the chakra system and personal aura. There is also a section on Gematria for the seasoned Qabalist, and a chapter on Daath.

Book Information

Paperback: 272 pages

Customer Reviews

A good source

I've learned more by Page 20 than I have in over a year! Wonderful wonderful read. Skip the psychiatrist fees! Studying this book will help you connect with your inner self and higher power. Don't just sit there and give your destiny over to fate -- get involved! This book will show you how. This is NOT a quick read. I recommend doing what the book describes as you read it. (There are some cases where you have to read further on before doing a step, but it's easy to find your way back to your projects.) Highly recommended! I've mentioned it to my closest friends. Learn the secrets that have been used for thousands of years to help you improve yourself and your life!

I thought this book was going to have advanced info on basic tattwas, but it didn't. It went into how to make different types, or your on tattwas for meditation. This book had a lot on magical squares.

This is a lucid and concise treatment of Western methods of consciousness transformation through number symbolism. Also known as "magic squares" these numbers, in the form of mathematical tables and geometric figures, are used to evoke various aspects of Universal Mind. The material is presented within a Kabbalistic framework by someone who seems to be a genuine practitioner. I was very impressed by the honesty and depth of her style, especially since the mathematical aspects of the material might seem a little dry at first. Anyone interested in learning more about the Western Magickal tradition would be well rewarded in reading this work.
