Mo: The Tibetan Divination System

Synopsis

The Tibetan divination system called "Mo" has been relied upon for centuries to give insight into the future turns of events, undertakings, and relationships. It is a clear and simple method involving two rolls of a die to reveal one of the thirty-six possible outcomes described in the text. This Mo, which obtains its power from Manjushri, was developed by the great master Jamgñn Mipham from sacred texts expounded by the Buddha.

"The stunningly simple Mo: Tibetan Divination is an ancient Tibetan predictive technique for forecasting the outcome of events, undertakings and relationships. Mo's approach is refreshingly different from the other oracle systems around...Mo's results seemed highly relevant, nourishing, inspiring, and best of all, authoritative."

Five star rating the tibetian divination must be approached with reverence . The old lama s suggest three months of purification which means saying the mantra to mansusri at least five malas a day

this will purify the sayer the reading an the dviniation . Tashi delai to all who read this advise.

Found the book and procedure to be annoying and not too helpful. Gave it away.

It was helpful to find this translation of an original Tibetan text available. One that is still taught today, and which I am fortunate to have received. It is clear and concise, easy to understand, deepening this westerners view of this Tibetan teaching. The foreword by H.H. Sakya Trizin, is full of insight and a reminder of the purpose of such writings. Thank you.

Like any other divination tool, one should not let this take over our lives. It should only complement our decision making, not be the key determinant of our decisions.

this little book came in perfect condition. No dice came with it, but I have dice. Im really looking forward to exploring the content. The book came very fast and I was happy with my purchase.

good book

Good alternative for Western prediction systems.

Simple and profound explanations on the divination system of MO is not only useful but illuminating. Very, very good indeed.
