I love watching Matt's videos and I was sure that his first book would be amazing. I was definitely right.

My son follows Matthew Santoro on YouTube and was very excited to learn he had a book. He has been carrying it around with him everywhere since he got it. He shares on the facts he learns with his family and anyone that will listen. I think it is safe to say he is very happy with it.

A very interesting good to read and ,excellent seller, highly recommended. A+++++++

This book is fantastic! It is packed full of facts, but it reads so well. This isn't just a list to go through, it is entire paragraphs and chapters on interesting topics. This is not something you could simply look up online on a Quick facts site. It is obvious a lot of care and research was done while putting this together.

Bought as a gift for my daughter who really enjoys watching YouTuber Matthew Santoro. She loves the book very much and shares the interesting data with us. Without giving away the surprises in the book - let's just say, even I get a good laugh out of the crazy information she shares!

Just got this and started reading it and already do not want to put it down. Love Matthew on YouTube and the book seems to carry right over from there.

Love the youtube channel & the book is awesome too. Have been enjoying my copy since it arrived shortly after release.

This book is great, it's funny and interesting! It's good when you have spare time and are saying to your self "what can I do right now?"
