Journey To Mauritius (Lost And Found: Classic Travel Writing)

Synopsis

Paul et Virginie (1787), an adolescent love story set in an exotic Indian Ocean island, was one of the literary sensations of the age. It was a huge critical and commercial success in France and abroad, a precursor of the Romantic movement. The novel's author, Jacques-Henri Bernardin de Saint-Pierre, had previously spent 28 months in the French colony of Ile de France (now Mauritius) in 1778-80. This extended exposure to the island not only inspired Paul et Virginie, but also led to one of the period's fullest and most fascinating accounts of a colonial society and its daily life. First published in 1773, Voyage à l'Isle de France is now available in this newly translated and annotated edition -- Journey to Mauritius. Mixing indignation with a lyrical appreciation of the island's beauty, Bernardin provides us with one of the earliest examples of a walking guide as he details Mauritius' sights and landscapes. An introduction sets this travel account in its historical context, discussing Bernardin's life and ideas.

"The most remarkable parts of the book are Bernadin's descriptions of the island's slaves, brought from Madagascar to work the sugar-cane fields. Bernadin was one of the first to denounce slavery having witnessed it...a fascinating record of eighteenth century colonial life and an inspiring example of independent thought."
