Perfect gift for aspiring tattoo artist

this book was a gift to a new tattoo artist...he had just completed his apprenticeship and I thought this would be a good book for his library at the shop. He loved it!

Written well, covers just the basics. Author did the research and gave many different meanings for some tattoo's. If you're brand new to tattooing then this book will help you understand meanings of

the basics.

Interesting book, the author did research on all the topics but still put a lot of their own personal opinions about things that kind of threw my interest off.

I only paid a couple bucks for this book and it wasn't even worth that much. Boring, lots of misinformation, and reads like a middle schooler wrote it

Interesting and kinda informative book, worth it if you want some background intel on tats, I have seen better books though.

This seems to be a book written for three year olds. It has nothing to do with tattoos. Save your money.

Informative
