National Park Quarter Collector's Map

Synopsis

Display your quarter collection in this educational Collector Map. Openings for all 56 National Park Quarters. Big 13" x 16.5" acid-free archival safe board construction is inert and safe for your coins. The National Park Quarters Coin Act of 2008 requires quarters, beginning in 2010, to have designs on the reverse depicting one national site in each state, the District of Columbia, and the five territories of the United States. Fifty-six (56) different designs will complete the program from 2010 through 2021. Color map/interior. [[Can be hung on wall by grommets in corners.]]

Customer Reviews

I'm a collector at heart. So I was really excited when I received this as a Christmas gift this past holiday season. It combines my love for U.S. national parks/monuments with a collection, while not taking up much real estate (unlike my Starbucks mug collection, lol). I didn't even realize that the U.S. Mint had this national park series--and I was surprised to know that it started in 2010!!! I showed this map to my 5 yo niece, and she thought it was pretty cool and decided that she wanted to collect the quarters too. So I bought her a collectors map of her own for her 6th birthday. She was so excited about it too! We must be related. :) It's also been a great tool to help her learn her U.S. geography. We both look forward to receiving change now, because we check the backs of all the quarters to see if it's one not already in our possession (I keep a checklist in my Notes app on my phone). This collector's map is not expensive at all, and it brings such joy to collectors both young and young-at-heart! A great find! Take note though, that this map is meant to permanently hold the quarters you place in each slot. It is very difficult to remove the quarters or even rotate them once they are pushed in, and attempting to remove a quarter may actually cause damage to the map,

FYI.

The layout of coin holes and states is very good, I like it. This is a nice pair to our State Quarter folder from the same publisher. Once you insert the coin into its hole you will struggle to get it back out without damaging the map, so make sure you do it right. This folder is large so be aware of that when buying. I chose this over the smaller ones based on the better reviews and I am glad I did. It is certainly not flimsy yet not too heavy, it will keep the coins safe.

Bought this item after my toddler found an old state quarter book, and started to show interest in the collection. He loves the vibrant colors and the entirety of the map. The pieces inside the slots are easy to remove and remove cleanly with no excess pieces. The only issue is that some of the dates are either wrong, or the mints released them sooner than planned (Guam, etc.) The size is perfect for little fingers and is easy to haul around.

I have been using this brand of quarter map since 1999, good construction. Only thing is if you try to get the coins out for whatever reason, it is a bit difficult, may need to hit the back of the map to get the coins out, overall great map, no complaints.

I bought 15 of the national park books to collect the coins for my Grandkids. The book is very informative and has two eyelets to hang it on the wall. You have to dig the temporary plugs out of each state and use some pressure to get the quarters in but this is not difficult to do. My Grandkids are very happy with them

This is a really great product and is very well-constructed. Whenever someone opens it up for the first time, they are absolutely amazed. The quarters fit tightly into the folder so there's no chance of them falling out. You can hang it using the built-in holes in the top corners or put it on a shelf. Highly recommended!

This has holes in the corners for hanging, and it also includes the 6 territory/DC national park quarter slots. Well made, and the quarters fit perfectly inside the slots without being loose.

I've been looking for a map that opens like a book. Great to replace the one I had which has a Velcro flap that unfolds two times. This is bigger than I thought it would be but still love it

nonetheless. Quarters are a bit hard to push in but at least I know my quarters won't fall out.
