Book by Wells, Robert

Very little information and not what I anticipated. It was definitely not worth what I paid. It is more of a \$5.00 book.

All three could have been compiled into one book. Most of the ideas are somewhat obvious. It is a rip off of sorts.

This is a book that is full of information on how to build some very effective weapons with materials around your house or get them at your local hardware and sporting good store for anyone who is gung ho on survival . I plan on buying volumes 2 and 3 next and very soon.

perfect... exactly what I wanted.

not my best choice , uses old data

Repackaging of an old military FM. Good if you don't know where to look. Not so good if you already have the info.
