My daughter is very happy with this sticker book!!! She home schools and says it is very educational and also fun!!! :) We are thankful to Jesus for finding this!!! :)

kids love this

This atlas has quite a bit of detail, separating Europe into East and West, Africa into three or four pages, South America into two pages, and so on. The pictures are in a style I enjoy, kind of retro, cute and friendly, but at the same time realistic. Each continent map has an inset map of the world, highlighting where it is located. It is fun to look up places online for further learning after discovering them on the sticker map.

We are using this great sticker book as a fun supplement to our around the world studies. My kids always enjoy when we get to the point of adding stickers to the new area we learned about. The atlas has the countries broken out nicely. The stickers are color coded so you have an idea of what stickers go together. Many of the stickers are things we've talked about during our country studies which is a great plus for us. When there are stickers of things we haven't already learned about we do a little research. This sticker atlas has been a great addition to our studies!

It is a good sticker book for learning and playing, my older niece really liked it, we use it together and talk about the world, how's people in other places. It is a very good activity and I enjoyed it as much as her. The quality of the images and the stickers is good too.

Great sticker maps! My 3rd grader really enjoys doing this!

Great item, rapid service
