The Best Little Monkeys In The World (Step Into Reading)

Synopsis

Illus. in full color. "Two little monkeys get into mischief while the oblivious babysitter chatters to her friends on the telephone. They coat the kitchen with blender-propelled banana shakes and run the bathtub over but clean up before their parents return. The text reads smoothly, and Knight's illustrations are lively and funny. For independent reading, and appropriate for library easy-reader collections."--Kirkus.Â Â

I absolutely love this book and have ever since my Grandmother got it for me as a little girl. I HAD to get my hands on another copy for my own children who are 8, 6 & 10 months old! They all love the

book! The illustrations have always been some of my favorite illustrations and now my kids love to stare at all the pages too! A little hard to find a copy for the original \$5.99 and \$32 was the cheapest I could find it but honestly, well worth the nostalgic feeling and passing on a story my grandmother gave to me and now I'm giving to my children. You won't regret this book.

This was one of my favorite books growing up and now that I have my own kid I had to buy another copy. She loves this book too! it's in very good condition as well!

The book was a little more tattered than I expected and the reading level is advertised as a 2, but the grade levels associated with that are higher than my son's reading level. this book is going to be a little challenging for him at age 5 even though the topic is appropriate.

I love this book as a child I was so happy when I found it on the website to give to my child now been looking for this book for so long great Buy..

Loved this book as a kid and was sad when I couldn't find a brand new copy anywhere else for a decent price. This one was in great shape however and I am happy to pass it on to my niece.

One of my favorite books from my childhood. My 3yr old twins love this book and can relate to the boy girl monkeys in the book. Love the illustrations. Lots to look at on each page.

One of my favorite books as a child, now I read it to my kids. Its a cute book.

This book was a lot more used than I was expecting- especially the cover. I am definitely a bit disappointed.
