# Guidelines For Facility Siting And Layout

## Synopsis

A resource for individuals responsible for siting decisions, this guidelines book covers siting and layout of process plants, including both new and expanding facilities. This book provides comprehensive guidelines in selecting a site, recognizing and assessing long-term risks, and the optimal lay out of equipment facilities needed within a site. The information presented is applicable to US and international locations. Note: CD-ROM/DVD and other supplementary materials are not included as part of eBook file.

## Book Information

Hardcover: 198 pages

Publisher: Wiley-AIChE; 1 edition (August 15, 2003)

Language: English

ISBN-10: 0816908990

ISBN-13: 978-0816908998

Product Dimensions: 6.3 x 0.6 x 9.6 inches

Shipping Weight: 1.1 pounds (View shipping rates and policies)

Average Customer Review: 5.0 out of 5 stars 1 customer review

Best Sellers Rank: #1,124,184 in Books (See Top 100 in Books) #47 in Books > Engineering & Transportation > Engineering > Chemical > Plant Design #707 in Books > Textbooks > Engineering > Chemical Engineering #7116 in Books > Science & Math > Chemistry

## Customer Reviews

The CENTER FOR CHEMICAL PROCESS SAFETY (CCPS), an industry technology alliance of the American Institute of Chemical Engineers (AIChE), has been a world leader in developing and disseminating information on process safety management and technology since 1985. CCPS has published over 80 books in its process safety guidelines and process safety concepts series. For more information, visit [www.ccpsonline.org](http://www.ccpsonline.org).

this book is just what the company was looking for the improvement of engineering, beside this, the book has been pretty useful.
