Get Paid To Travel The World - Complete Guide To Get Paid To Do What You Love: Create Freedom In Business And Adventure In Life - Hotel Deals , Free Flights And A Dream Life

Synopsis

Do you want to travel the world for free? This book will teach you how you can get paid to travel the world. All that is required is some common sense, work ethics, a little out of the box thinking and yes – the motivation to travel! Have you always had the dream to travel the world but never had the funds to provide for your trip? You want to travel the world but you have a boring job that does not give you enough time off? If you answered yes to any of these questions, then it is time for you to begin a new adventure. If you think that travelling the world and getting paid for it is not possible, know that there are many people who have been on the road for years and are able to sustain their travels. This is our third year of travelling around the world and we have been using the exact same tactics that will be explained in this book. We will explain to you the step by step process of how to create a social media brand that will allow you to get sponsored and thus, allow you to travel the world for free. These steps will require investments, whether it is time or money, however, it is a small tax to pay in order to achieve a life of travel. Although it can seem daunting and impossible at first, all of the work put forth is worth every second and cent to achieving your dream.

FREE Bonus – Step by Step guide to start your Social Media Branding and get paid to travel

What You Will Learn In this book, you will go through different chapters explaining the many different aspects that require you to get started. First, we will discuss the preparation process, such as how to set goals and plans, the skills that you need, and how much it would cost to potentially start your own project. We will then discuss the planning process with all the details and insight we collected throughout the years from many full time professional travelers. After we discuss how to create a brand, we will then discuss social media and how to include all social media outlets into your planning process. We will explain how to get a large amount of followers, how to get people to see your social media sites, how to network, market, and advertise your brand, and how to create a mailing list. Once all of your websites and social media pages are completed and you have acquired a substantial following, you are then able to approach sponsors, which is the part where you get paid. So, we will explain to you how to find, approach, and use specific language to get the sponsors you want and need to monetize your brand. Although this may seem like a daunting task, this book will break the process down into many steps that make it easier for you to organize and easily complete each step without any previous experience. Discover the proven method that will allow you to Travel The World For FREE and even get paid to visit the places you always wanted to!

Customer Reviews

When I downloaded this book I found that while there was a chapter or two about making sustaining yourself during the time when you're travelling, most of the book was using tactics that were found to work by authors Angela and Antonio, founders of a company that helps fellow travelers model their success. So, the book is mostly about what to do to prepare for your trip such as creating a brand on social media, getting sponsored, blogging, selecting your market, picking your audience, so you are actually getting paid to travel. I found the Skills Checklist which included skills such as photographic equipment and blogging talents and your savvy of social media, sales and marketing knowledge to name a few. The section on making money on the road included working jobs and projects like Teaching English, Selling Timeshares, Resort Jobs, and even giving Haircuts at a popular hostel, plus many more ideas that the authors share. A worthwhile book if you love to travel and like the idea of having it paid for.

I won't lie, my excitement kinda died out after I learned that I need to do things like get lots of followers on your Facebook page. But hey, there's no easy way to "get paid to travel the world right? lol! It's a pretty bold title though. What the real message is... is "How to have financial freedom so you can have free time to travel instead". It isn't like someone will pay you for traveling. This is all about creating a huge profitable business from scratch so it encourages you to take classes and stuff. Not everyone is successful but this book at least steers you towards the right path. I have some experience in this area and totally know what the author is talking about. It focuses on travel blogging btw so if this is your calling, I think it could be a true ticket to financial freedom!

When I got this book it was like I wish I had got it a several years before. I found this topic very interesting. This book tells you about how to travel freely without having problem of budget and also earning at the same time. It's not like someone will pay you as a salary but it's about blogging and utilization of the social medias. There were short stories of travelers which helped me to understand more about the concept of this book. Well if you really want to be traveler then must read this book, you will have another aspect toward traveling.

This is very interesting! Who wouldn't want to travel and get paid? Doing your dream job while on travel, now that's fascinating and more than awesome, for me. This book is a keeper, showed so many innovative ways to make money and live the life you long to aspire.

A just ok book to pick up some tips.

Nice book, great tips :)

A fantastic guide on how to make money while living the life of your dreams, no joke. Take it from someone who has actually done it and knows the ins and outs. This guide is great if you're just getting started or even if you know a bit and are on the go already! Newbies and experienced pros alike are sure to gain something valuable inside. Antonio is an honest and genuine person who runs companies online and specializes in e-commerce for his own brands and is one of the leading retailers in Portugal. He has extensive travel experience and also knows his stuff when talking business. Running businesses on the go can be a struggle but worth it. Shave the proper years off your learning curve and get the book. Do yourself a favor and learn from the immense value inside!

Awesome and inspiring book specially for those who caught the travel bug or even for those people that is curious what are the things, tips or what not, to know how to hit the two birds which are to travel the world and to get paid at the same time...
